## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-49 are allowed.

The following is an examiner's statement of reasons for allowance: prior art, U.S. Patent # 6,701,138 B2 of Epperson et al., does not teach nor render obvious a power amplifier circuit that has, in combination with other limitations, the second amplification stage for receiving the control signal and other than receiving at least one of the temperature signal and the sense signal for varying the second gain in dependence thereon, neither does it have a method of operating a multi amplification stage amplifier circuit that has the step of amplifying one of a signal derived from the first amplified RF signal and the first amplified signal using the second amplification stage to form a RF output signal, the amplifying of the one of a signal derived from the first amplified RF output signal and the first amplified signal performed in conjunction with a step of other than compensating of the second amplification stage for at least one of temperature and supply voltage fluctuations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
